## ➔ Cookies:

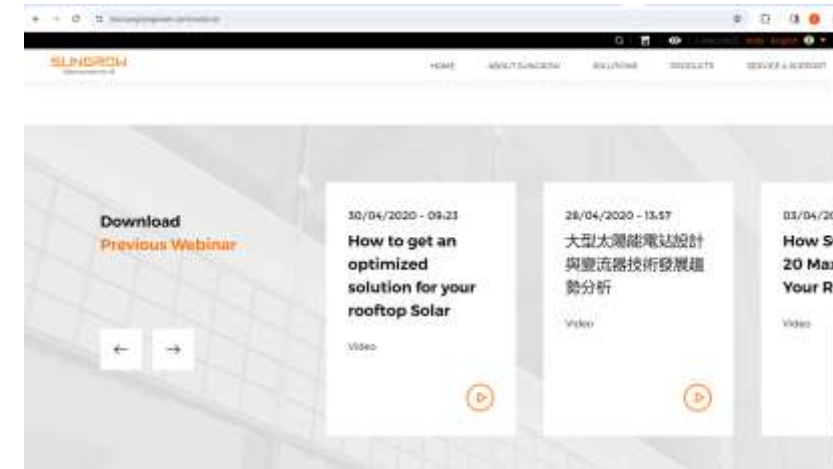

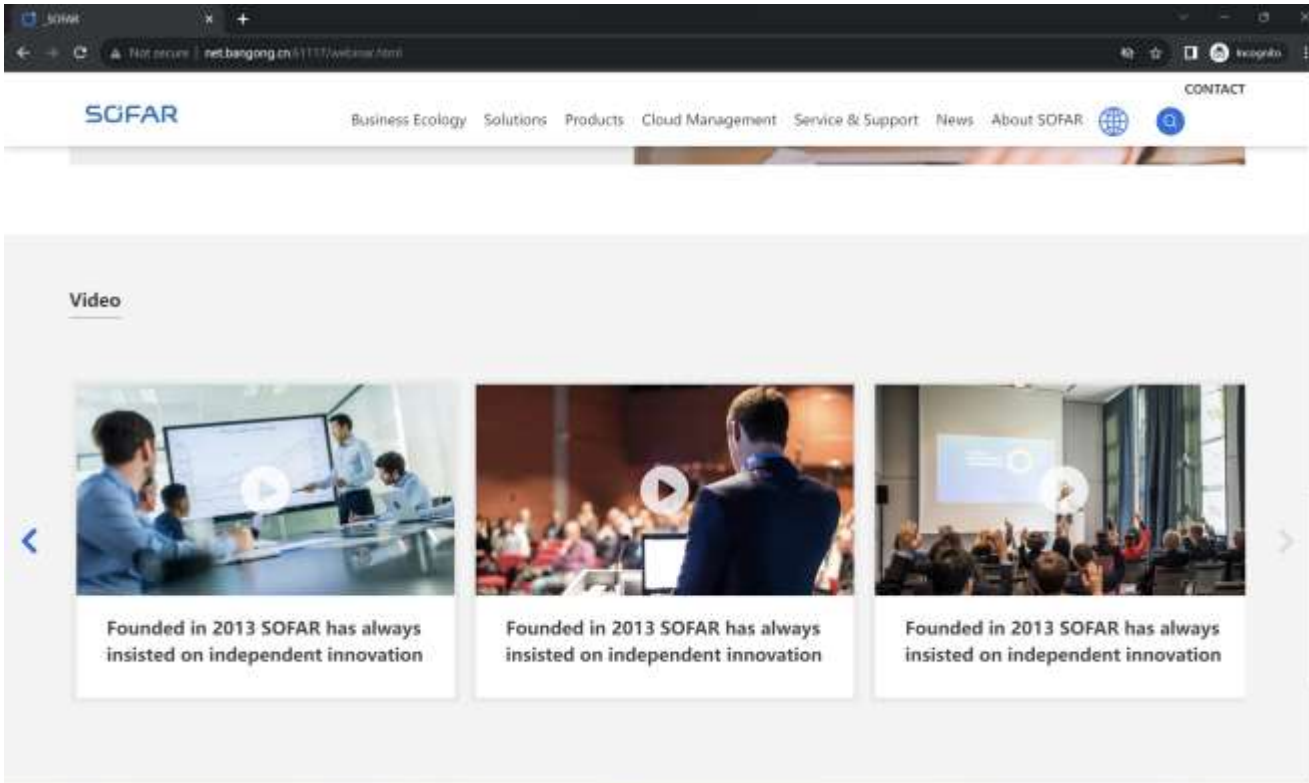

- Cookies make the website effective while taking users' permission and sending notifications of news & and data.

## → Footer:

- The footer needs to be aligned as a sequence of tabs required first.

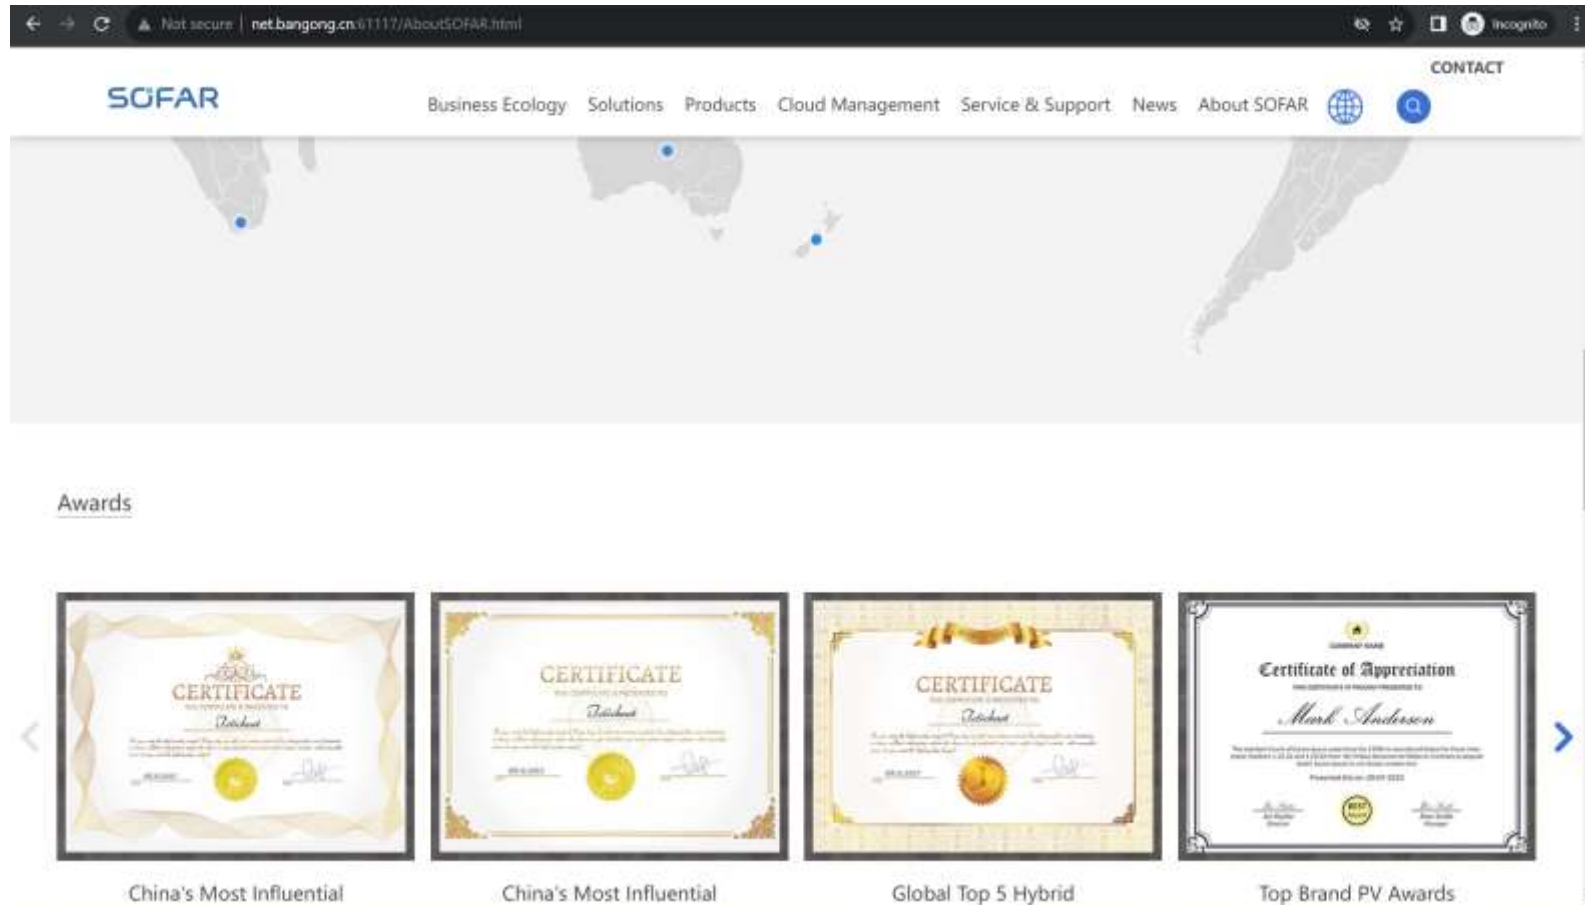

About SOFAR > Solutions > Products > Service & Support > News > Contact

Competition Screenshot for reference only  
<https://ind.sungrowpower.com/webinar>

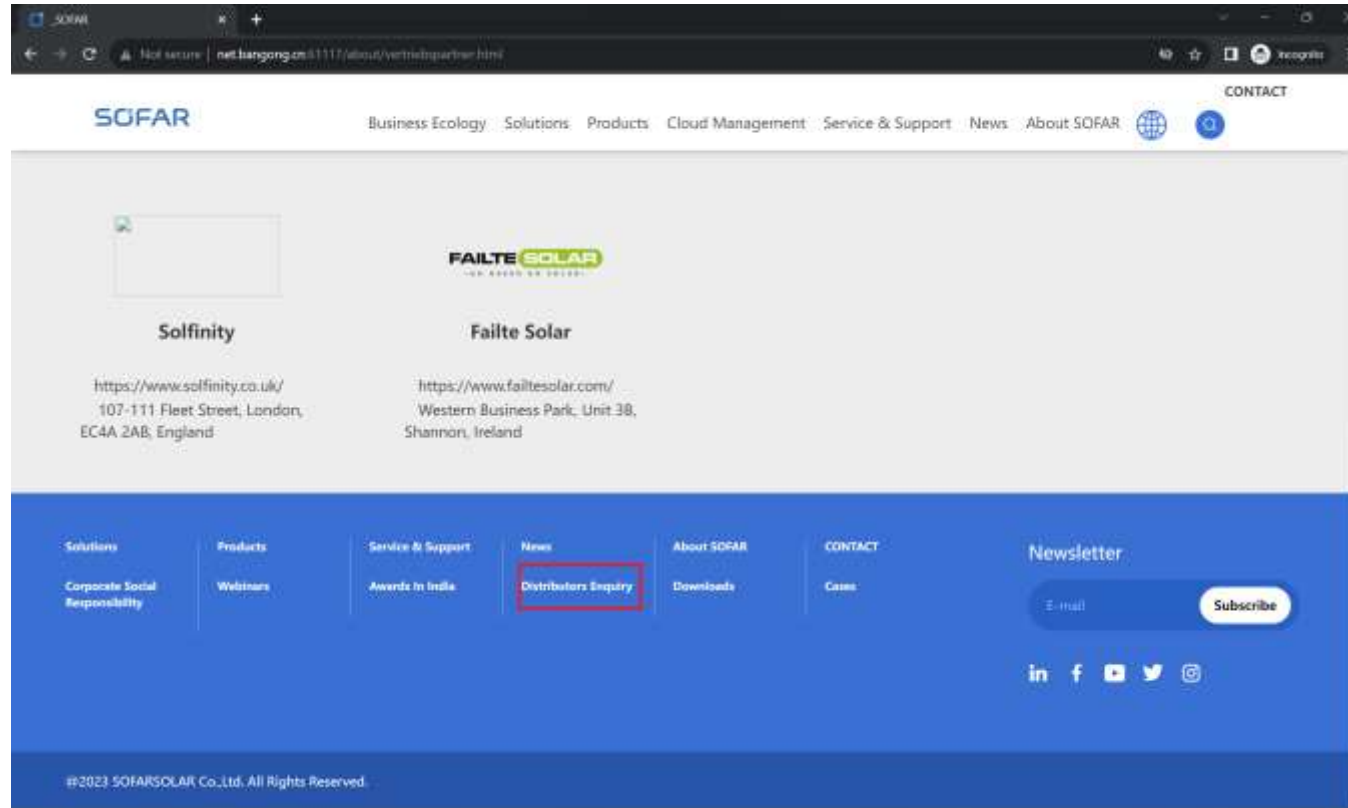

## → Webinars

- A webinar page should have the option to download previous webinars.

➔ **Website Footer: India Awards**

- An awards page is good, Just if we can remove the Globe image above the awards.

## → Website Footer: Distributors Details

- The Distributor page is good, But just write “Distributors” . Writing Distributors Enquiry gives the impression of filling in data for applying for SOFAR distributor.
